

Year 5 COOL time- TOPIC

Given out: Friday 13th May Due in: Wednesday 18th May

As we know through our work on Ancient Greece, the first Olympic Games gave crowns made from olive leaves to those athletes who won events. In modern Olympics, bronze, silver and gold medals are used. Your COOL time task this week is to design a NEW medal for the Olympics of the future.

Be creative- try to incorporate a design on the medal surface. You can draw your medal or even make it! If you are drawing, use the space below.
